Philosophy

Our Belief

There is only
one formula to success

Dream + Determination = Strategy

We promote a "chicken before the egg" approach to eliminate confusion.

An over emphasis on democracy can dilute control, while empower leadership fosters stability and efficiency.

Comfort and complacency lead to failure. Whereas foresight and alertness enables sustained growth.

We believe market don't sink; products mature. There is no lasting success without constantly embracing new challenges.

Endurance and tolerance are forged through adversity, while true toughness and flexibility emerge from overcoming challenges and setbacks.

Our Working Formula

- Meeting should include diverse opinions
- Decision is the result of compromise
- Action is the product of decision
- Understanding and coordination form the foundation of teamwork
- Support the decision of the majority while respecting the proposals of the minority

Our Human Resources Policy

Emphasizes openness in attracting developing talent, inclusiveness in embracing diverse perspective and wisdom, and balance management practices centered on competency.

Our Corporate Strategies:

- Everybody is a Driver
- Mindset Transformation
- Constantly Innovating with Continuous Growth

Galaxy Group Of Companies

Galaxy Group of Companies is a diversified conglomerate established in 1972, headquartered in Petaling Jaya, Selangor. Over the past decades, the Group has expanded its operations across various sectors including printing solutions, multimedia, office automation, and environmental care.

The Group is comprised of several subsidiaries, each specializing in distinct areas:

- Galaxy Automation Sdn. Bhd.**
Focuses on digital imaging solutions, large-format digitizing and archiving, print finishing solutions, multimedia and presentation solutions. It serves as the exclusive distributor for a range of innovative products, ensuring comprehensive pre and post-sales support.
- Scientific & Technical Products Sdn Bhd**
Specializes in advanced technology education lab solutions, providing state-of-the-art equipment and resources for educational institutions.

- Galaxy International Sdn. Bhd.**
Focuses on indoor air quality solutions, environmental care solutions and smart classroom education systems.
- Global Property & Logistic Sdn. Bhd.**
A property management and corporate service provider for properties and assets under the Galaxy Group of Companies
- Shining Star Trading Sdn. Bhd.**
Engaged in the trading of various products in East Malaysia, primarily in Sabah, with sales and service centers located in various districts in Sabah.

Under the leadership of Group Chairman and Managing Director, Mr. Tony Tee Boon Chai, Galaxy Group has adopted a prudent and pragmatic approach to business expansion through responding to customer needs and market changes.

The Group emphasizes core values such as teamwork, innovation, and customer satisfaction, aiming to be the preferred partner and supplier in its respective markets.

In addition to its business ventures, Galaxy Group is committed to corporate social responsibility engaging in various charitable projects and awareness campaigns to support community development and sustainability.

Chairman Message

“The AI era isn’t about man versus machine—it’s about man working with machine.”

Integrating Human Intelligence with Artificial Intelligence

In today’s fast-evolving technological landscape, Artificial Intelligence (AI) is not just a trend—it is a transformative force reshaping industries and redefining how we innovate, operate, and deliver value. At Galaxy Group of Companies (GALAXY), we see AI as a catalyst for smarter decision-making, enhanced efficiency, and stronger engagement with our customers, partners, and communities.

As we embrace this transformation, GALAXY remains committed to leveraging AI to build a future-ready, sustainable enterprise. Staying at the forefront of technological innovation enables us to adapt, compete, and grow in a dynamic world.

However, progress comes with challenges such as reskilling our workforce, integrating AI with legacy systems, ensuring ethical use of technology, and investing in the infrastructure to scale AI-driven services. We approach these challenges proactively, knowing that success depends on our ability to adapt and evolve.

Operating across diverse yet interconnected sectors—Digital printing, Indoor Air Quality solutions, Smart Classroom and Smart Meeting Room Solutions, Hybrid Classroom Advanced Recording systems and High-Tech Educational Training systems—we stand at the intersection of technology, education, and environmental wellbeing. AI is unlocking powerful possibilities: from smart automation in printing and real-time analytics in air quality monitoring, to personalized learning and intelligent AV controls.

The **AI** era isn’t about man versus machine—it’s about man working with machine. Those who align technology with human talent and ethical responsibility will lead the next wave of innovation.

At GALAXY, we are not just adapting to change—we are shaping it. By embedding AI at the core of our innovation, we will continue to empower businesses, protect the environment, and enrich learning experiences.

Together with our dedicated team, trusted partners, and loyal customers, let us embrace this era of intelligent transformation—to grow stronger, serve better, and lead boldly into the future.

Adapting, Adopting, and Leading in the AI Era!

Meet The Directors

Mr. Tony Tee BoonChai

Group Chairman/ Group Managing Director

Graduate in Electrical Engineering & MBA, USA, with over 35 years of leadership experience. Joined Galaxy Group at 26, driving growth through dynamic and visionary leadership. Currently serves as Group Chairman & Group Managing Director since 2018.

Mr. Tan Boonkiat

Group Corporate Affairs & Operations Director

Over 30 years of leadership with Galaxy Group since 1992. Key contributor in marketing and operations, supporting the Group's expansion. Appointed Group Corporate Affairs & Operations Director in 2017.

Mr. Khung Shyangloon

Group Sales & Marketing Director

Joined Galaxy Automation in 2003 after graduating from Curtin University, Australia. Progressed from Sales Executive to Sales Director, driving growth in sales and operations. Currently serves as Group Sales & Marketing Director and Executive Director of Galaxy Communication & Office Automation Sdn. Bhd.

Mr. Alvin Khung Shyangwee

Operations Director (GPL)

Graduated from the University of Manitoba, Canada, and joined Galaxy Automation in 1996 as Marketing Executive. Gained diverse experience across subsidiaries, including Scientific & Technical Products and Gomas, where he established the F&B business. Currently serves as Operations Director for Global Property and Logistics Sdn. Bhd.

Mr. Frederick Soh Suifah

Marketing & Operations Director (STS)

Graduated in Computer Science from University Malaysia Sabah in 2000, with early career exposure in Singapore. Joined Shining Star Trading in 2003 and rose through sales and marketing roles with strong analytical leadership. Appointed Marketing & Operations Director in 2013.

Galaxy Automation

Galaxy Automation Sdn. Bhd. (GA) specializes in providing solutions that streamline and improve the efficiency of office tasks through technology. We offer a wide array of products and services designed to automate routine administrative, communication and operational tasks, enabling businesses to reduce manual effort, enhance productivity and lower operational costs.

Company Profile

Galaxy Automation offers a range of products such as :

PRINTING AND IMAGING SOLUTIONS

Automated production printers, office printers and scanners that help improve document workflow and reduce the need for manual handling for paper-based documents.

DOCUMENT MANAGEMENT SYSTEMS

Software and hardware that helps businesses store and track digital documents, making it easier to search and retrieve information quickly.

POST-PRESS EQUIPMENT

Machines from cutting and binding to coating, spot UV, collators, and embossing transform printed sheets into finished products, ensuring they are polished, accurate, and ready for distribution. This post-press equipment makes the printed materials presentable and functional for consumers. As printing technology advances and post press-equipment evolve, we continue to offer new possibilities for creative finishing techniques and for more efficient production workflows.

With branches and service centers located across Malaysia, GA is well placed to support its customers with the best in customer support and technical service. Our team of technical support personnel is constantly providing the latest in technical training to ensure customers received the most out of the products and services offered. From installation and configuration to troubleshooting and maintenance, our technical support professionals provides timely and effective support demonstrating our commitment to excellence and customer's satisfaction.

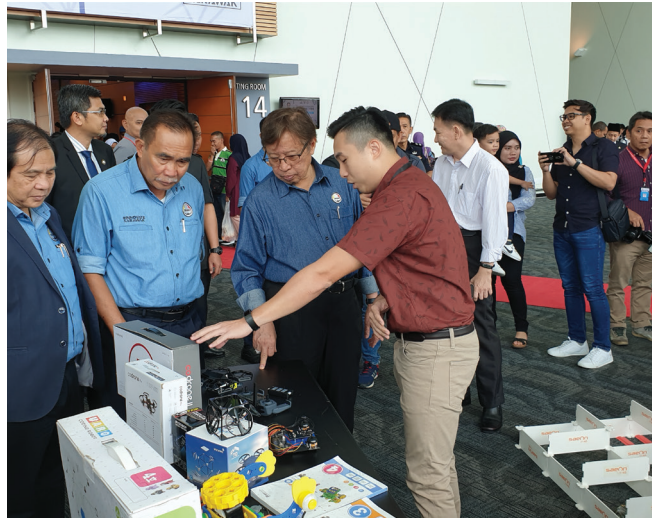

Scientific & Technical Product

Scientific & Technical Products Sdn Bhd (STP) is a market leader in supplying and distributing high-tech educational solutions for STEAM, TVET, and Industry 4.0 related training and educational solution. STP plays a crucial role in the digital transformation of Malaysian education by delivering hands on, industry standard training tools for electronics, robotics, cybersecurity and more, enabling educational institutions to bridge the gap between traditional subjects and emerging technologies thereby supporting government and private sectors in developing skilled, future ready graduates.

STP's strategic alliances, continual product updates and strong technical support position it to introduce next -gen tools like AR/VR, AI based trainers, smart labs to maintain relevance in the evolving high-tech education landscape.

Company Profile

Product And Courseware Innovation

STP offers a robust suite of products:

- Advanced wireless communication, mechatronics and robotics courseware
- Internet of Things (IoT) and smart factory (IR 4.0) training solutions
- AI and big data related education solutions
- Cybersecurity and Digital Forensics training solutions
- Green and Renewable Energy educational training solutions
- TVET and STEAM related educational teaching solutions
- Upskilling and reskilling professional certifications
- Smart Hybrid Classroom and Training solutions
- AI Classroom and Recording systems
- Smart Hybrid Workshop and Laboratory Solutions

Beyond distribution, STP is deeply committed to customer success. Our services include installation, user training, after-sales technical support and curriculum integration assistance. With a dedicated team of support engineers, the company ensures seamless deployment and effective usage of its products. Workshops, demo sessions and educator training programs are frequently organized to keep clients informed about the latest educational technologies and teaching methodologies.

Through Its dedication, innovation and strategic partnerships STP plays a vital role in transforming classrooms into dynamic future ready learning spaces. STP champions the vision of digital equity, working closely with educational institutions to make high tech learning accessible to all.

In a world where education must keep pace with technology, STP continues to equip educators and learners with impactful and intelligent education solutions.

STS Shining Star Trading

Shining Star Trading Sdn Bhd (STS) is a long-standing, well-established company based in Kota Kinabalu, Sabah, with over 25 years of experience, importing and distributing premium global brands throughout the state. STS has 4 branches which are located in Kota Kinabalu, Sandakan, Labuan and Tawau. STS offers customers a comprehensive range of equipment and solutions such as office automation solutions, audio-visual products, smart classroom solutions, and pre-press and post-press equipment.

Company Profile

STS is a trusted provider of office automation and technology solutions, recognized for its commitment to excellence in both sales and after-sales support. supported by a team of skilled sales and technical professionals, STS ensures that every client receives high-quality products, reliable service, and tailored solutions that meet their operational needs.

Guided by a customer-centric philosophy, STS focuses on delivering more than just products. The company adopts a consultative approach and working closely with clients to understand their workflows, identify challenges, and recommend efficient solutions that enhance productivity and long-term business value. This partnership-driven approach has earned STS a reputation for reliability and trust.

With a strong local presence and in-depth understanding of the Sabah market, STS provides solutions that align with the unique needs of organizations across various sectors. The company serves government agencies, educational institutions, corporate organizations, and SMEs, ensuring each receives technology that supports efficiency, innovation, and growth.

By partnering with globally recognized brands, STS delivers high-performance and dependable technologies that meet international standards while remaining adaptable to local demands. Its offerings include a wide range of office automation products and integrated systems designed to help businesses optimize operations and embrace digital transformation.

As Sabah continues to grow economically, particularly in education, government, tourism, and services, STS remains committed to supporting the region's modernization journey. Through continuous investment in products, technical expertise, and customer satisfaction, STS aims to play a key role in advancing digital adoption and operational excellence across the state.

Global Property & Logistics

Global Property & Logistic Sdn. Bhd. (GPL) is a leading property management and corporate service provider under the esteemed Galaxy Group of Companies. Established to strengthen and support the Group's wide-ranging business operations, GPL is dedicated to safeguarding property investments, enhancing asset performance, and ensuring sustainable long-term growth. Through years of accumulated experience and industry expertise, GPL has developed a reputation for delivering dependable, efficient, and value-driven solutions that meet the diverse needs of both internal stakeholders and external clients.

Company Profile

With a highly experienced and professional team, GPL provides comprehensive end-to-end property management services that encompass property leasing, tenant management, rental collection, and facilities maintenance. The company's approach combines proactive asset care with transparent and systematic processes to ensure every property under its management operates at optimal efficiency. By focusing on service quality, cost control, and preventive maintenance, GPL not only preserves but also enhances the long-term value of each asset entrusted to its care.

Beyond property management, GPL plays a pivotal role in strengthening the corporate framework of the Galaxy Group through its dedicated Accounting Division. This division offers a complete suite of financial and administrative services, including financial reporting, bookkeeping, taxation, compliance management, and audit coordination. By maintaining rigorous adherence to statutory and regulatory standards, GPL ensures the Group's financial operations remain transparent, accountable, and aligned with sound governance practices. This disciplined approach enables informed decision-making, risk mitigation, and sustainable business growth across all companies within the Group.

The seamless integration of property management expertise with financial and corporate services distinguishes GPL as a true one-stop solution provider. The company's ability to oversee both physical and financial assets allows it to deliver holistic management solutions that optimize operational performance and improve business efficiency. By uniting technical knowledge, strategic insight, and a customer-focused mindset, GPL continues to enhance organizational productivity while supporting the Galaxy Group's long-term business objectives.

At the core of GPL's mission lies an unwavering commitment to value creation, reliability, and service excellence. The company strives to build trust by consistently delivering results that protect investments, sustain asset growth, and contribute to the overall success of the Galaxy Group of Companies. Through continuous improvement, innovation, and professionalism, GPL remains dedicated to being a trusted partner in property and corporate management—ensuring that every project and asset under its care achieves its fullest potential.

Galaxy International

Galaxy International Sdn. Bhd. (GI) has established itself as a trusted provider of advanced technological solutions in Malaysia. Among its diverse products "Indoor Air Quality" (IAQ) Solutions and Smart Meeting/Conference Room solutions have emerged as two of the keys solutions of GI.

These tailored solutions typically combine interactive displays, high-definition video conferencing systems, intuitive audio components, and smart meeting room control interfaces to support a wide range of uses, including board meetings, training sessions, and presentations.

GI's management and technical teams bring extensive experience across green and renewable energy, IoT solutions, and smart building applications, ensuring comprehensive deployment and reliable after-sales support. Galaxy International stands out not only by distributing IAQ products and smart meeting solutions, but also by providing value-added services such as site assessments, system design consultation, and after-sales technical support. Our team of experts works closely with M&E consultants, facility managers, and building owners to deliver customized solutions tailored to the unique needs of each environment.

Indoor Air Quality Solutions (IAQ)

Under its IAQ portfolio, GI distributes innovative air-cleaning plasma technology, most notably the Biozone Indoor Air Quality solutions. Its IAQ solutions cater to modern needs for healthier indoor environments and are tailored for diverse applications, going beyond generic filtration through chemical-free operation, scalable designs, and customized system integration for educational, commercial, and industrial settings.

As awareness of IAQ continues to grow, GI is committed to expanding its offerings and embracing new IAQ technologies. In a world where clean indoor air is no longer a luxury but a necessity, GI is leading the way with dependable, innovative, and scalable air quality solutions that make indoor environments safer, healthier, and more comfortable for all.

Smart Meeting And Conference Room Solutions

GI provides comprehensive smart meeting and conference room systems designed to support modern workplaces and hybrid collaboration. Our meeting and conference room solutions are engineered to meet the demands of contemporary businesses, ranging from small meeting rooms to large-scale executive boardrooms. These solutions integrate core communication technologies with intuitive control systems, making meetings more interactive, engaging and productive.

Partnership & Collaborations

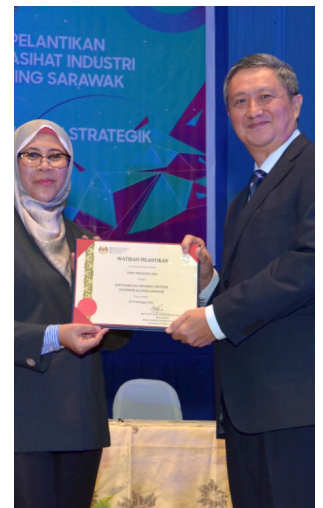

In today's fast-paced and highly competitive business landscape the relationship between manufacturer, distributor and customers plays a critical role in ensuring efficiency, market penetration and customer satisfaction. A well-structured partnership and collaboration not only streamline supply chains, but also create mutual growth, opportunities, foster innovation, and enhance brand value. A successful partnership and collaboration is rooted in trust, transparency, and aligned objectives. Manufacturers rely on distributors to be the face of their brand in the market, managing logistics, customer relationships and after sales service. Conversely, distributors depend on manufacturers for consistent product quality, technical support, marketing materials, and timely production, whereas customers are the driving force between every decision in the manufacturer distributor relationship. Galaxy Group of Companies exemplifies this principle through its dynamic partnership with a wide network of trusted manufacturers, enabling the company to enter new markets faster, respond to customer needs more effectively, and build stronger brand recognition.

We are also engaged in collaborations and partnerships with universities and polytechnics to promote operations in the areas of education, training, innovation, and expert services.

The company holds regular strategic meetings and performance reviews with its manufacturers to align goals and strategies, as well as invests in continuous product training, technical workshops, and marketing support with its marketing and technical personnel to keep them updated and competitive.

The relationship between Galaxy Group of Companies, its manufacturers, and customers is more than a transactional agreement, it is a strategic alliance built on trust, shared vision, and mutual benefit.

As industries evolve and customer expectations grow, Galaxy Group of Companies continues to invest in nurturing these partnerships and collaborations to be better positioned for long-term success.

Powering Growth Through Strategic Marketing

Exhibitions, Roadshows & In-House Events

As a leading provider of office Automation solutions, our company understands the importance of staying visible, relevant, and connected in an ever-evolving business environment. To achieve this, we actively engage in a variety of strategic marketing activities, with a strong focus on exhibitions, roadshows, and in-house exhibitions to promote our products and services, demonstrate innovations, and build lasting relationships with our clients.

Company Profile

Industry Exhibitions: Showcasing Innovations

Participating in major industry exhibitions is a key part of our marketing approach.

These events provide a powerful platform to:

- Display our latest office automation solutions.
- Engage with decision-makers, IT professionals, and procurement teams.
- Position ourselves as a leader in office technology and efficiency.

By creating interactive and visually appealing displays, we effectively communicate how our solutions help businesses reduce costs, streamline workflows, and improve productivity.

Roadshows: Bringing Technology to Our Customers

To extend our reach beyond traditional venues, we organize roadshows in targeted locations across the country. These mobile marketing events allow us to:

- Demonstrate real-time functionality of products such as document scanners, production printers, advanced office automation solutions, and post-press solutions.
- Educate businesses on latest office automation, digital print, and post-press technologies.
- Foster direct engagement and generate leads in new and growing markets.

Our roadshows are carefully planned to encompass commercial hubs, industrial zones, and business parks where our automation solutions are most needed.

In-House Exhibitions: A Personalized Experience

We also regularly host in-house exhibitions at our showroom or head office. These exclusive, invitation-based events are tailored for existing clients and key prospects.

The benefits include:

- Live demonstrations
- Hands-on training sessions and Q&A with our technical team
- Opportunities for clients to explore customized solutions based on their business needs

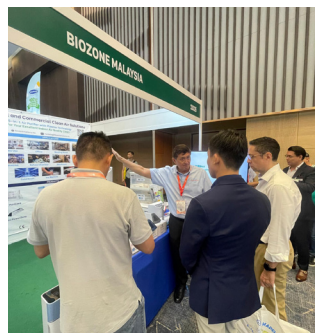

Conclusion:

Through a well-balanced mix of exhibitions, roadshows, and in-house exhibitions, we continue to strengthen our market presence and showcase the value of smart office automation. These marketing efforts not only generate interest and sales, but also reinforce our commitment to helping businesses modernize their operations for better efficiency and performance.

As we move forward, we will continue to invest in impactful marketing initiatives that connect us with the right audiences and drive our growth in the office automation industry.

Galaxy Recreational Club (GRC)

Founded with the idea of encouraging an active and engaged lifestyle GRC organizes a variety of sports and leisure activities throughout the year for employees. Activities include sports, team-building outings, and festive celebrations that bring employees and families together in meaningful ways.

One of the benefits of GRC is to enhance interpersonal relationships within the company. Through shared experiences outside the usual work settings, employees from different departments and levels can interact more freely, fostering collaboration, understanding and teamwork. This sense of unity positively impacts productivity and workplace morale.

GRC also organizes annual festive events for Hari Raya, Chinese New Year, Deepavali and Christmas luncheons or dinners. These events help create a sense of inclusion and mutual respect among all employees.

Aside from sports and festive activities, GRC also plays a role in the company's CSR efforts, charity donations, blood donation drives, and community outreach programs.

These initiatives not only make a positive impact on the community but also instil a strong sense of purpose and pride among employees.

As Galaxy continues to grow, GRC aims to expand its activities ensuring that more employees benefit from its offerings with wellness and engagement at its core. GRC remains a vital part of Galaxy Group of Companies, mission to create a balanced, vibrant and people-centric workplace.

Our Company Theme Song

NEGARAKU

Negaraku
Tanah tumpahnya darah ku
Rakyat hidup
Bersatu dan maju

Rahmat Bahagia
Tuhan kurniakan
Raja kita
Selamat bertakhta

Rahamat Bahagia
Tuhan kurniakan
Raja kita
Selamat bertakhta

GALAXY SONG

Let us sing a happy song
Clap your hands and sing along
Sing of galaxy Malaysia
Sing of galaxy Malaysia

We are all in galaxy
It's like one big family
Wherever we may be
Together we'll always be
For you we bring along
A service that is strong
Blue is symbol of love
Blue is symbol of love

For you we serve
You can come to us
We are all galaxy

THE VOYAGE OF GALAXY

We are the sailor of galaxy
We are the builder of galaxy
Not as huge as titanic could be
Not as gracious as it seems to be

We are the navy of galaxy
Fighting and striving to be what we wanna be
Night and day we work and sail away
Never a time we'll walk away

We've been sailing ten years in the sea
Breaking thru, all barriers there could be
As we are the builder of the ships
We'll keep sailing on the sea

We know the structure and toughness of the ship
Not to compete in size and speed
Sailing strong across the pacific
Spirits high-the best team wins

We will keep on sailing in the sea
Together we building the galaxy
For you and for me
To build a happy family
For you and for me
To build a happy family
