MESSAGE *from* THE CHAIRMAN

*Warm greetings to our Business Partners,
Friends, Galaxians, and Family Members,*

It is my pleasure to share the 54th edition of the Galaxy Bulletin as we begin the Year of the Snake in 2025. This issue features several special events, including:

- The opening of GA Johor Bahru's new office
- The Customer Appreciation Dinner in Johor Bahru
- The GRC Sport Club's Beach Cleaning & Picnic Day
- The wedding celebration of Hui Yi and Kenneth
- Staff retirement announcements

As we usher in the new year, let us reflect on the symbolism of the snake in our journey. Known for shedding its skin, the snake teaches us about growth, renewal, and transformation. Just as the snake evolves by shedding its skin, we too must grow both personally and as a company. It is time to cast off old constraints and outdated patterns to make way for new opportunities, healthier practices, and renewed energy. This transformation empowers us to embrace possibilities, build resilience, and propel toward success.

The Snake Ladder game symbolizes our career paths and development. Every move, whether advancing or falling back, reflects our journey. Setbacks should be seen as stepping stones to greater success. We must seek opportunities that elevate us and learn from challenges to emerge stronger.

As we embark on this new year, let us embrace the snake's transformative power. We need to continuously evaluate and update our strategies, processes, and technologies. By letting go of old habits, beliefs, and thought patterns, while adopting new methods, we can innovate and improve efficiency. With this collective energy, we will continue to grow and thrive as a company.

Year of Mindset Transformation, Evolution and Growth!
